

🌟 ASSOCIATION OF ALL COMPUTER SCIENCE TEACHERS (AACST)

📢 Organizing

🌐 National Webinar on

CODE THE COSMOS

Your First Step into Computational Methods & Cosmic Science

📅 Event Details

📅 6th April 2026

🕒 6:30 PM - 8:00 PM IST

💻 Online Mode: Zoom

👤 Convenor

Dr. Abha Khandelwal

Founder, AACST

Retired Head, Department of Computer Science

Hislop College, Nagpur

🏛️ President

Dr. S. B. Kishor, AACST

🎤 Speakers

Dr. Sathyanarayanan K

Asst. Professor, Department of Physics

The Cochin College, Kerala

Dr. Ojas Garg

Research Associate, PURSE Project

Maharshi Dayanand University,

Rohtak, Haryana

📢 About the Webinar

Enter a space where ideas transform into **simulations** and **data** reveals meaningful insights. Explore the intersection of **programming, mathematics, and astrophysics** to unlock the secrets of the universe.

This session is designed to **empower beginners** with the **foundational tools** to model celestial phenomena and analyze astronomical data through computational techniques.

👥 Who Can Join?

- Anyone curious about **AI, Space & Computation**
-

🚀 What You'll Learn

- Introduction to Scientific Computing: Basics of programming for science
 - Simulating the Universe: Modeling planetary orbits & star systems
 - Data Analysis in Astronomy: Handling cosmic datasets & visualizations
 - Future Frontiers: Exploring next-gen computational astrophysics
-

➡️ **How to Join** Join the WhatsApp group to participate in the webinar

🔗 <https://chat.whatsapp.com/K3go18Ht3otlbezcnwOb9j?mode=ghost>

📢 All joining instructions will be shared in the group
